

Name _____

World Geography
Earth's Human Geography
Review Assignment
The ABC's of Unit 3

Directions:

- ❖ On a poster board, make five columns and five rows with a ruler. You should end up with 25 boxes. Use pencil first, and then trace over it with a marker or pen.
- ❖ For each box, draw in a letter of the alphabet. Letters should be colorful and artistic. Again, use pencil first.
- ❖ Each letter starts with and represents an important term or idea from Unit 3. For example, "P" could stand for "push factor". However, try to come up with original terms or ideas that no one else might think of.
- ❖ Write in the term or idea in the box of its letter. Include a picture, either drawn by you or cut out from a magazine.
- ❖ On a separate sheet of paper explain your term or idea for each letter in at least one complete sentence. Show that you understand it.
- ❖ Use lots of color and your imagination to make an attractive, neat poster. I might use these posters as work samples during parent-teacher conferences. Therefore, create something that you will be proud of.
- ❖ Choose between letters X and Z. That is why there are only 25 boxes. You can also use words with these letters in them rather than starting with them.
- ❖ This assignment enables students to review and study important concepts of Unit 3, while using their creativity and imagination.

Grading Rubric:

- ❖ Each box that is attractive, neat, and uses a term or idea from Unit 3 earns you one point.
- ❖ Each sentence that accurately explains or uses the term or idea for each letter earns you one point.
- ❖ The final poster is worth a total of 50 points.

Due:

❖ _____
