

World Geography

Unit 5 – Europe & Russia's Physical Geography

Europe's major mountain ranges are:

Ural Mountains - which separate Europe and Asia

Caucasus Mountains - which also separate Europe and Asia, and are the namesake of the Caucasian race, not to be confused with Caucasian peoples

Carpathian Mountains - a major mountain range in Central and Southern Europe

Alps - the famous mountains known for their spectacular slopes

Apennines - which run through Italy

Pyrenees - the natural border between France and Spain

Pennines - which run through central England

Scandinavian Mountains - a mountain range which runs through the Scandinavian Peninsula

Europe's major bodies of water:

The Atlantic Ocean

The Mediterranean Sea

The Black Sea

The Baltic Sea

The North Sea

The Arctic Ocean
