

The Smelliest Neighbors Ever Have Just Moved In Next Door!

Directions: Write a creative story in which you tell how the new neighbors are not what you would call, “ideal”. First of all, they stink profoundly! Secondly, they seem to want to cozy up with you and your family and become best friends.

- ✓ In your story, introduce these people. What do they look like, what do they do, and most importantly, how do they smell?
- ✓ Describe their actions since they have moved in next door. Name the characters in your story.
- ✓ What are you and your family doing about this problem?
- ✓ Finally, include a resolution (a solution to the problem).
- ✓ Use as many of the writing elements as possible, especially the experimentation with words and descriptions.
- ✓ Remember to make the reader care about your problem and to keep the reader interested.
- ✓ Include a title for your story.
- ✓ As always, proofread for spelling and grammar errors.
